About the Institute

Indraprastha Institute of Information Technology Delhi (IIIT-Delhi) was created by an act of Delhi legislature empowering it to carry out R&D, conduct educational programs, and grant degrees. The General Council is the apex body of the Institute, chaired by Hon'ble Lt. Governor of Delhi and the Board of Governors is the policy and decision-making body of the Institute. The Senate is empowered to take all academic decisions. IIIT-Delhi is rapidly accelerating on the path of becoming one of the leading comprehensive research-led teaching institutes in India, and has proven to be consistently responsive toward the evolving needs of society. The Institute has six academic departments - Computer Science and Engineering, Electronics and Communication Engineering, Computational Biology, Human-Centred Design, Mathematics, and Social Sciences & Humanities. Its research centres include the Centre for Artificial Intelligence, Centre for

Design and New Media, Centre of Excellence in Healthcare, Centre of Excellence on Sustainable Mobility, and Centre for Quantum Technologies and Centre for Intelligent Product Development.

B.Tech. Programs

Computer Science and Applied Mathematics (CSAM) Computer Science and Artificial Intelligence (CSAI) Computer Science and Biosciences (CSB) Computer Science and Design(CSD) Computer Science and Engineering (CSE) Computer Science and Social Sciences (CSSS) Electronics and Communications Engineering (ECE) Electronics and VLSI Engineering (EVE)

Fees & Scholarships

Chairman's Scholarship.

● JEE Main Rank < 1000: 100% Scholarship of the tuition fees ● JEE Main Rank between 1000-2000: 50% Scholarship of the tuition fees ● This scholarship scheme is available for all 4 years with additional terms & conditions

Women Empowerment Scholarship in STEAM Education (WESSE)

Top 100 female students who scored more than 95% aggregate marks in the XII Board Exam will be granted a scholarship equivalent to 50% of the tuition fee for all 4 years with additional terms & conditions.

IIIT-Delhi Merit cum Means Scholarship

This scholarship may be availed by students in their 2nd, 3rd, and 4th years who possess the the National Food Security Scheme card and are beneficiaries of that scheme. [Click here for additional terms and conditions.](#)

Fast Retailing Sponsorship Program

Within this scheme, an MoU has been signed for the education sponsorship program with Fast Retailing (FR) Japan. Under the MoU, FR will provide full tuition & dormitory fees covering all 4 years of the Bachelor's degree program with additional terms & conditions.

Pankaj Jalote's Laptop Scheme

Within this scheme, laptops are distributed to the students who are from economically weaker sections.

Fees & Loan Scheme

IIIT-Delhi Journey

Awards & Rankings

FeaturedResources

ACADEMICS

The main objective of the B.Tech. program at IIIT-Delhi is to develop students such that they are well prepared with the necessary core competencies.

COURSES

The courses which enables the student to study, explore and innovate sound engineering solutions to various technical problems.

FACULTY

The faculty members at IIIT-Delhi are among the finest in the country and are internationally recognized.

RESEARCH

Carrying out cutting-edge research, that is both meaningful and impactful, is in the institutional DNA of IIIT-Delhi

Collaborations

Academic & Industry collaborations not only enhance the reputation of IIIT-Delhi but also enrich the academic and research landscape by fostering exchange of ideas, expertise, and resources across borders. By actively engaging with universities, research groups, policymakers, and industry partners worldwide, faculty members at IIIT-Delhi are contributing to the advancement of knowledge and innovation on a global scale. Joint publications, research projects, and outreach activities resulting from these collaborations not only contribute to the academic excellence of the institute but also have real-world impact by addressing societal challenges and driving technological

innovation. This diverse network of collaborations also provides valuable opportunities for students and researchers to gain international exposure, broaden their perspectives, and build valuable connections that can shape their careers. Continuing to strengthen and expand these external collaborations will further solidify IIIT-Delhi's position as a global leader in education and research, while also making meaningful contributions to addressing global challenges and driving positive change.

Transfer of credits:

IIIT-Delhi has a flexible policy that allows students to pursue academic work and courses at other reputed universities, potentially spending up to two semesters at another university. This opportunity could provide students with valuable experiences and broaden their academic horizons. The maximum credit transfer limit of 40 credits over the entire B.Tech. program, with a cap of 20 credits per semester, ensures that students maintain a balance between their home institution's requirements and external academic pursuits. This policy is designed to encourage exploration and academic enrichment while also ensuring that students stay on track towards their degree goals.

IIIT-Delhi and SUNY Albany Collaboration

IIIT-Delhi (A state university of Delhi) and SUNY Albany (A state university of New York) has signed an MoU for Academic collaborations. This collaboration brings together two institutions renowned for their academic excellence and commitment to innovation. This collaboration will offer two exciting dual degree program in both UG and PG Level. Below is the details for UG level dual degree program;

Undergraduate Level: 2+2 Dual Degree Program

This partnership opens up exciting opportunities for IIIT-Delhi B.Tech. Computer Science and Engineering (CSE) and Electronics and Communications Engineering (ECE) students to pursue a degree in Bachelor of Science in Forensic Science at SUNY Albany, providing

a unique blend of theoretical knowledge and practical skills through collaborative research projects, exchange programs, and joint coursework, students benefit from exposure to diverse perspectives and cutting-edge methodologies in the field of forensic science. By leveraging the strengths of both institutions, this collaboration empowers students to become future leaders in forensic science, equipped with the interdisciplinary expertise needed to address complex challenges in crime investigation and criminal justice.

Highlights of the program

- This 2+2 joint degree program in collaboration with the State University of SUNY Albany offers 10 seats for the existing students who got admitted to the B.Tech. CSE and ECE program.
- Fee: The fee will be charged for 2 years at IIIT-Delhi and 2 years fees will be paid at SUNY Albany University as per their fee structure.
- All students admitted to CSE and ECE programs, through various modes, will be eligible to apply for this program.
- The application will be considered after the end of the 2nd Semester, and a committee will look into the applications. Selected students will be informed during their 3rd Semester.
- The student will join SUNY Albany post-completion of required credits after their Summer Term 2 at IIIT-Delhi (tentatively end of August) .
- Once shortlisted for this program, remaining credits will be completed at SUNY Albany University in their 3rd & 4th Year.
- The course mapping of IIIT-Delhi & SUNY Albany University is done in such a way that students will be able to complete degree requirements of IIIT-Delhi as well as for the SUNY Albany. In case students do not complete the course work at SUNY Albany, they will have the option to come back and complete the requirement at IIIT-Delhi.
- After the completion of the degree requirements of both the Universities, students will get Bachelor of Technology (B.Tech.) Degree of IIIT-Delhi and Bachelor of Science (BS) in Forensic Science Degree of SUNY Albany.
- The students may get three years of OPT (Optional Practical Training)

after completing this program.

Higher Education

IIIT-Delhi students pursue higher education in core research areas and are poised to make significant contributions to their fields. Equipped with a strong foundation from their undergraduate studies at IIIT-Delhi, these students delve into advanced topics with curiosity and rigor. Whether exploring computer science, electronics, or other specialized fields, they bring innovative perspectives and a dedication to pushing boundaries. With access to cutting-edge facilities and guidance from esteemed faculty members, IIIT-Delhi graduates embarking on higher education journeys are well-positioned to excel in academia and industry, driving forward the frontiers of knowledge and innovation.

Innovation & Incubation

IIIT-Delhi has set up a Technology Innovation Hub under the National Mission on Interdisciplinary Cyber-Physical Systems to catalyze state-of-the-art research, technology transfers, industry engagement, and entrepreneurial activities. IIIT-Delhi is also a part of the Delhi Science and Technology cluster and addresses some of the hyperlocal problems through research. The Institute has a healthy innovation ecosystem leading to entrepreneurship. The IIITD-Incubation Centre is instrumental in driving the growth of entrepreneurial activities at the IIIT-Delhi campus, which includes providing incubation support, funding, infrastructure, mentoring, etc., to students,

faculty members, alumni of the Institute, and other entrepreneurs working on technology start-ups. Funds from DST, MEITY, and the Delhi Government supports the Incubation Centre. IIIT-Delhi students received funding from famous TV reality show, 'Shark Tank India'.

National Education Policy

IIIT-Delhi has taken several measures to ensure the highest quality, equity, and integrity in the education practices at the Institute. Below are some of the initiatives in line with NEP 2020:

Holistic and Multidisciplinary Education

● Unique UG programs of CSSS, CSD, and CSB ● Self Growth and Community Work included in curriculum ● Vibrant Innovation and Incubation Centre and E-Cell

Optimal Learning Environment and Support for Students

● Choice based credit system Internship facility with industry ● Continuous assessment ● Dedicated Wellbeing Cell ● Online courses for students

Internationalization.

● Credit transfer to/from overseas universities ● Dedicated Office of International Affairs ● Collaboration with foreign universities and industries ● International students from 17 countries

Student Activity and Participation

● Student clubs ● Cultural and technical fests ● Active Student Senate and Student Council bodies

Financial Support for Students

● Scholarships and fee waivers for socio-economically disadvantaged students ● Industry-sponsored scholarships for students

Motivated, Energized, and Capable Faculty

● Tenure track faculty positions ● Professional Development Allowances (PDA) ●

Research Initiation Grants ● Faculty Chairs ● Professor of Practice

Equity and Inclusion in Higher Education

● Accessible infrastructure and website for specially-abled individuals ● Braille signages at several locations on campus ● Dedicated washrooms for specially-abled and transgender individuals

Catalysing Quality Academic Research in All Fields

● Government and Industry-funded research and innovation centres ● Inter-disciplinary research

Diversity & Inclusion

Diversity and Inclusion diversity and inclusion serve as the foundation of IIIT-Delhi and are indivisible from the Institute's commitment to academic excellence. Being located in the capital of India, Delhi, which is known for its rich culture and diverse population, the students, faculty, and staff of the Institute come from varied backgrounds. As an embodiment of knowledge and learning, IIIT-Delhi realizes its responsibility to nurture a welcoming environment, and embraces diversity in all of its forms so that each of its stakeholders coming from different walks of life can collectively learn, work, and serve.

Diversity:

The Institute complies with applicable provisions of the state law, which prohibits discrimination in employment, or in admission or access to its educational or extracurricular programs, activities, or facilities, based on myriad forms, including »Race, Caste, and Ethnicity »Gender and Gender Identity »Sexual Orientation »Socioeconomic Status »Physical Abilities »Religious & Political Belief

Inclusion:

Inclusion is also an essential element of a diversity-focused initiative. IIIT-Delhi is trying to involve more unique perspectives and is making consistent efforts to provide a welcoming environment on campus where every individual has a sense of inclusion and

belongingness.

Harshita Srinivas

IIIT-Delhi Alumni

The four years I spent at IIIT-Delhi were profoundly transformative. From exploring various areas of computer science to interacting with the fantastic faculty and students, the whole journey has been a great learning experience. Along the way, I learned to manage my time better, make sound decisions and most importantly, not shy away from challenges. The highly competitive environment at IIIT-Delhi instilled in me the value of perseverance and motivated me to push my limits to become a better person. Academically, I gained a deep understanding of computer science, undertook numerous research projects and learnt from a wide array of courses. Further, my involvement in extracurricular activities, both as a participant and organizer, allowed me to interact with my peers, gain interpersonal skills and learn about diverse causes and concepts. Due to the skills I gained, I was able to secure some wonderful internships and scholarships. Moreover, I met exemplary professors who provided me with unwavering support along the way and introduced me to interesting research prospects. I made friends for a lifetime, who stood with me through thick and thin, motivated me and helped me learn from them. Reflecting on my first day of college, when I arrived only with hopes of what I plan to be in the future, I can surely say that I have surpassed all my hopes. As I depart, I do so as a more confident and accomplished individual.

Setu Gupta

IIIT-Delhi Alumni

I had a good time at IIIT-Delhi. I really liked the depth and the rigor of subjects which IIIT-Delhi offers.

Aditi Sejal

IIIT-Delhi Alumni

The past four years at IIITD taught me a lot about computer science, about mathematics, about myself and about life. Under the exceptional guidance of inspiring professors, I accomplished some of the most challenging tasks I never thought I could undertake; from course assignments to research projects, I learnt something everyday. The vibrant student life including college clubs that create impact, empowering teaching assistantships and a memorable hostel life made me more confident and independent. They instilled in me discipline, curiosity and the ability to multi-task that helped me grow and make the most of every opportunity. And amidst all the deadlines, workload and hustle and bustle of college life, I found amazing people and built bonds that will last a lifetime. I am profoundly grateful for all IIITD has done for me.

Risabh Sinha

IIIT-Delhi Alumni

My college experience was fantastic because of the incredibly supportive faculty and my fellow students. The teachers were always there to help and made learning easy. They cared about our success. But what made it even better were my classmates. They were like a big supportive team. We helped each other out, shared notes, and studied together. Having such caring teachers and peers made my college journey truly memorable.

Harika G L

IIIT-Delhi Alumni

IIITD provided me with a remarkable faculty and supportive peers, making it an

excellent environment for learning and acquiring a diverse set of skills. I am deeply grateful to my thesis advisor, Dr. K Sriram, for his guidance throughout the journey, preparing me for the world of research.

Utkrisht Sikka

IIIT-Delhi Alumni

"You will never have more energy or enthusiasm, hair, or brain cells than you had in college life." --- modified quote of Tom & Ray Magliozzi. I was enrolled in IIIT-Delhi's B.Tech program. The institute offered a plethora of courses for students to choose from.

Tanya Gupta

IIIT-Delhi Alumni

My four years at IIIT-Delhi have been an exhilarating journey, marked by continuous learning, personal growth, and unforgettable moments. Reflecting on this chapter of my life, it's evident that the most memorable part was the amazing coursework I got to do here. Thanks to the diverse set of computer science electives offered, I ended up exploring almost all domains, be it cybersecurity, systems programming, theoretical computer science, parallel computing or artificial intelligence. The professors here are truly at the top of their game, and their passion for their fields is infectious! The hands-on nature of our coursework ensured that we delved into all kinds of coding tasks ranging from writing system calls for the Linux kernel to fine-tuning transformers, thereby making adapting to any new tech stack second nature. In addition to the enriching CS courses, the well-structured economics minor program taught me so much about the workings of financial markets and institutions, the role of fiscal and monetary policies, the complexities of consumer and producer behaviour, the dynamics of

corporate finance and the principles of game theory. While the majority of my learning came from coursework and research projects, it would have been incomplete without the incredible people I met here. Interacting with peers who came from different walks of life and understanding their unique perspectives shattered the tunnel vision I had held since childhood. It transformed me into a better individual, more open-minded and empathetic. Undoubtedly, the degree presented its fair share of challenges, but overcoming them has instilled in me a profound sense of confidence. Now, I feel more prepared than ever to embrace the challenges that await me in the rest of my life.

Pritish Wadhwa

IIIT-Delhi Alumni

Expressing my experience at IIITD in words doesn't quite capture the amazing time I've had here. College has been a transformative journey for me. From the very first day, the campus has been a warm and inspiring place, with wide green spaces that helped me find inner peace and stay focused on my goals. During my college years, I've had the chance to be part of various clubs and groups, which opened up many opportunities and led to lifelong friendships. IIITD gave me countless chances to explore my interests both in academics and extracurricular activities. These experiences not only helped me grow as a person but also gave me the confidence to pursue my dreams and accomplish great things. Looking back at my time in college, I'm incredibly grateful for all the memories and experiences that shaped me into who I am today. I met some wonderful people during these four years who made everything seem easier. I'll always hold these memories dear and will forever appreciate my friends, professors, and the staff at IIITD for being there at every step, making this journey truly memorable.

Khushi Agarwal

IIIT-Delhi Alumni

I came to IIIT-Delhi as a girl full of dreams, driven by a passion to excel in everything I did. My goal was to prove myself to me and find my rightful place in this world. Little did I know that I would discover more than I had ever imagined: excellent education, invaluable mentors, cherished friendships, transformative experiences, and skills that will accompany me throughout my lifetime. Those countless nights of hard work, hours of group discussions, numerous assignments, and enriching collaborations were all instrumental in preparing me for the journey ahead and shaping me into the person I am today. Over these four years, I had the privilege of being part of remarkable initiatives like Enactus and Odyssey, which allowed me to connect with some of the most amazing individuals. I have grown tremendously, both as an individual and as a professional. I am deeply thankful to everyone who has been part of my journey here. IIIT-Delhi has not only honored me with a silver medal but also paved the way for a golden future.

Abhimanyu Gupta

IIIT-Delhi Alumni

In 2019, I embarked on my college journey, choosing IIIT-Delhi and the CSAM program for their practical-based Computer Science curriculum. Despite initial apprehension of the fact that I was in one of the most rigorous academic institute, I believed it was worth the challenge. My freshman year was a whirlwind of new experiences. It was a time of self-discovery, realising that personal growth would be an integral part of my college life. Then throughout courses like IP, DSA, and AP my passion for programming kept nurturing. There were also courses like ML and DL which seemed unpierceable for most part, but once done imbibed newfound confidence that I could conquer any academic challenge. Outside the classrooms, there were friends, hostel life, the beloved

BCR hangouts, and a lush campus filled with joy that together formed the vibrant backdrop of my unforgettable journey. At end of 4 transformative years at IIIT-Delhi, I feel determined and enthusiastic to embrace the next chapter of my life. The challenges, the highs, and the lows have shaped me into the person I am today.

Ananya Jain

IIIT-Delhi Alumni

It has been a roller coaster ride. I found myself again here. From a self conscious and shy teenager I morphed into a self aware adult. The journey was worth all the effort :))

Ritik Vatsal

IIIT-Delhi Alumni

Graduating from IIIT-Delhi is more than just receiving a degree; it is a journey of growth, discovery, and unforgettable moments. The advanced infrastructure, coupled with dedicated professors, made learning an enriching experience. From late-night study sessions in the hostels to lively discussions with the professors, every moment was a step toward personal and academic development. I am grateful for the invaluable guidance from the faculty, the constant support from the administrative department, and for my friends, with whom there was never a dull moment. As I toss my cap into the air, I know that IIIT-Delhi has prepared me not only for my career but for life itself.

Rishita Chauhan

IIIT-Delhi Alumni

College has not just been about degree.. It has been about the experiences and memories I have made which truly reflects on what I am today and will definitely influence on who I'll be tomorrow. You meet many faces but there are only few who'll

actually be there with you through out life. I have got mine.. I hope you find yours soon.. ;)

Bhavesh Sood

IIIT-Delhi Alumni

At IIITD, I embarked on a wild journey that involved seeing more sunrises than ever. But hey, it wasn't all because of assignments but a lot of them because of the incredible friends that I found. From taking extra ML courses to playing in Astra, my time here has been a whirlwind of academic challenges and unforgettable experiences. I'm taking with me a treasure trove of memories and a spirit of adventure that I'll carry into the next chapter of my life.

Direction to Campus

To reach the campus, coming from Nehru Place on outer ring road, follow these directions:

From Airport

You have several options for traveling from New Delhi IGI Airport to any location within the city. The airport has two main terminals: Terminal 3 for international flights and Terminal 1 for domestic flights. Pre-paid taxis: Inside the airport terminals, you'll find official "pre-paid taxi" counters. Here, you can book and pay for your taxi upfront. The rates are fixed, ensuring fair pricing without the risk of overcharging or refusal of service. You can easily locate these counters before exiting the Terminal building. AC taxi bookings: Another convenient option is to book an AC taxi from a taxi company's counter. These counters are available in both terminals. Once booked, follow the signs

to locate the designated pick-up point. Companies like Meru cab and Blue Smart offer this service. App-based taxi bookings: If you prefer the convenience of app-based bookings, several options are available and operate smoothly in Delhi and offer airport transfers in various car sizes. You can book directly from your phone or, if you're not connected to a data network, visit the counters inside the Terminals or near their pick-up points in the parking lot. Pay attention to signs for their designated pick-up points. The most widely used transportation services in this area are Uber and Ola. Hotel-arranged transfers: Additionally, many hotels provide airport transfer services for their guests. It's advisable to check with your hotel directly to arrange for this service.

From Railway Station

There are three long-distance train terminals where you can get down (if you are coming by train) to reach IIIT -Delhi. These are: New Delhi Railway Station, Old Delhi Railway Station and Nizamuddin Railway Station. The nearest railways station is Okhla Station, but not all the trains stop there. Even if you are coming by train you can always book app based taxis to reach IIIT-Delhi from the respective terminal stations.
