Why Recruit @ IIITD?

Why Recruit @ IIITD?

IIIT-Delhi encourages its students to balance their academics and co-curricular activities. This allows for an all-round development, as evidenced by the numerous projects undertaken and the participation in sports and cultural events. This is evident from the wide repertoire of projects that they have done as well as their participation in sports and cultural events. The institute also encourages the students to showcase their research in national and international conferences and workshops. The students work as Teaching Assistants, guiding and aiding the students in the batches that are junior to them.

The Academic Programs

The Courses are finely refined and fabricated to meet the needs of the versatile industry and latest research areas. The highly qualified, intellectual and technically proficient faculty at IIIT-Delhi fuel the learning process in turn igniting the minds.
