

Well-being Cell

About Well-being Cell

Services We Offer

Individual Counselling Where one to one interaction is held between a client and a psychologist. One gets an opportunity to express out his/her concerns freely and to discover ways to implement positive solutions. **Group Counselling** Where a common concern of more than one is taken care of for their better outputs. Here one can relate to others and get benefit from each other's support and experiences. **24X7 Online Counselling Support** In collaboration with YourDost we offer online "FREE of COST" counselling support to all at IIIT-Delhi. **Workshops / Seminars** We organize different workshops on various mental health related concerns.

We also have Student Mentorship Program within the IIIT-Delhi student community, with the primary objective of enabling constructive and positive interaction, guidance and mentorship of junior students by senior students. For details please visit [Here](#)

Concerns We Take Care of
